Short Travel Keyboards

Short Travel Keyboard Range

Keyboard Features

- High reliable OMRON mechanical switches
- chemical, abrasion and scratch resistant front sheet
- NEMA 4 sealing
- Desktop and panel mount versions available
- Integrated trackball, touchpad or joystick
- 19 inch 1U drawer compatible units
- > 3 million operations per key
- Semi- or full customization available

Short Travel Keyboard - options

Trackball

Touchpad

Joystick

USB-Port

Individual
Printing

Antimicrobial
Coating

Haptic Printing

Finger Print Sensor

Chip Card Reader

TKS-088b-TOUCH-AM-KGEH

InduMedical™

Keyboard Features

- antimicrobial polyester front sheet -> best suitable for hygiene-sensitive areas
- still 99% efficiency after a simulated 15-year-use
- active protection features of the used Microban®-Technology
- particularly made for application in medicine, pharmacy, chemistry and food industry

Gold-on-Gold Dome Keyboards

TKF-085b series

Key Features

- Gold-on-Gold keys consisting of a gold metal dome on gold PCB-contact
- Rugged construction for reliable functionality
- Desktop and panel mount version available
- Integrated or separate Trackball or Touchpad
- > 1 million operations per key
- Cost-effective

TKF-085c-MGEH

InduStyle™

Keyboard Features

- Most attractive, stylish and professional input device
- Ideal for applications with limited space conditions
- Suitable for 19" drawer use
- Very stable full-metal enclosure (aluminum)
- Small Footprint Design
- Only 15.5 mm high

IP68 Keyboard Range

InduProof™

InduProof™ and InduMouse™

Features

- IP68; NEMA 6P
- Developed for industries where ease of cleaning or disinfecting is a must
- compact versions
- integrated mouse button
- OMRON mechanical switches (InduProof)
- Gold-on-Gold Domes (InduProof³)
- Optional with backlight
- submersible in up to 3 meters
- Rounded key tops make it easy to clean
- Reliable optical mouse
- Special Dura-coating for excellent mechanical and chemical resistance
- Extreme temperature range of
-40 °C (-40°F) to +90 °C (+194 °F)

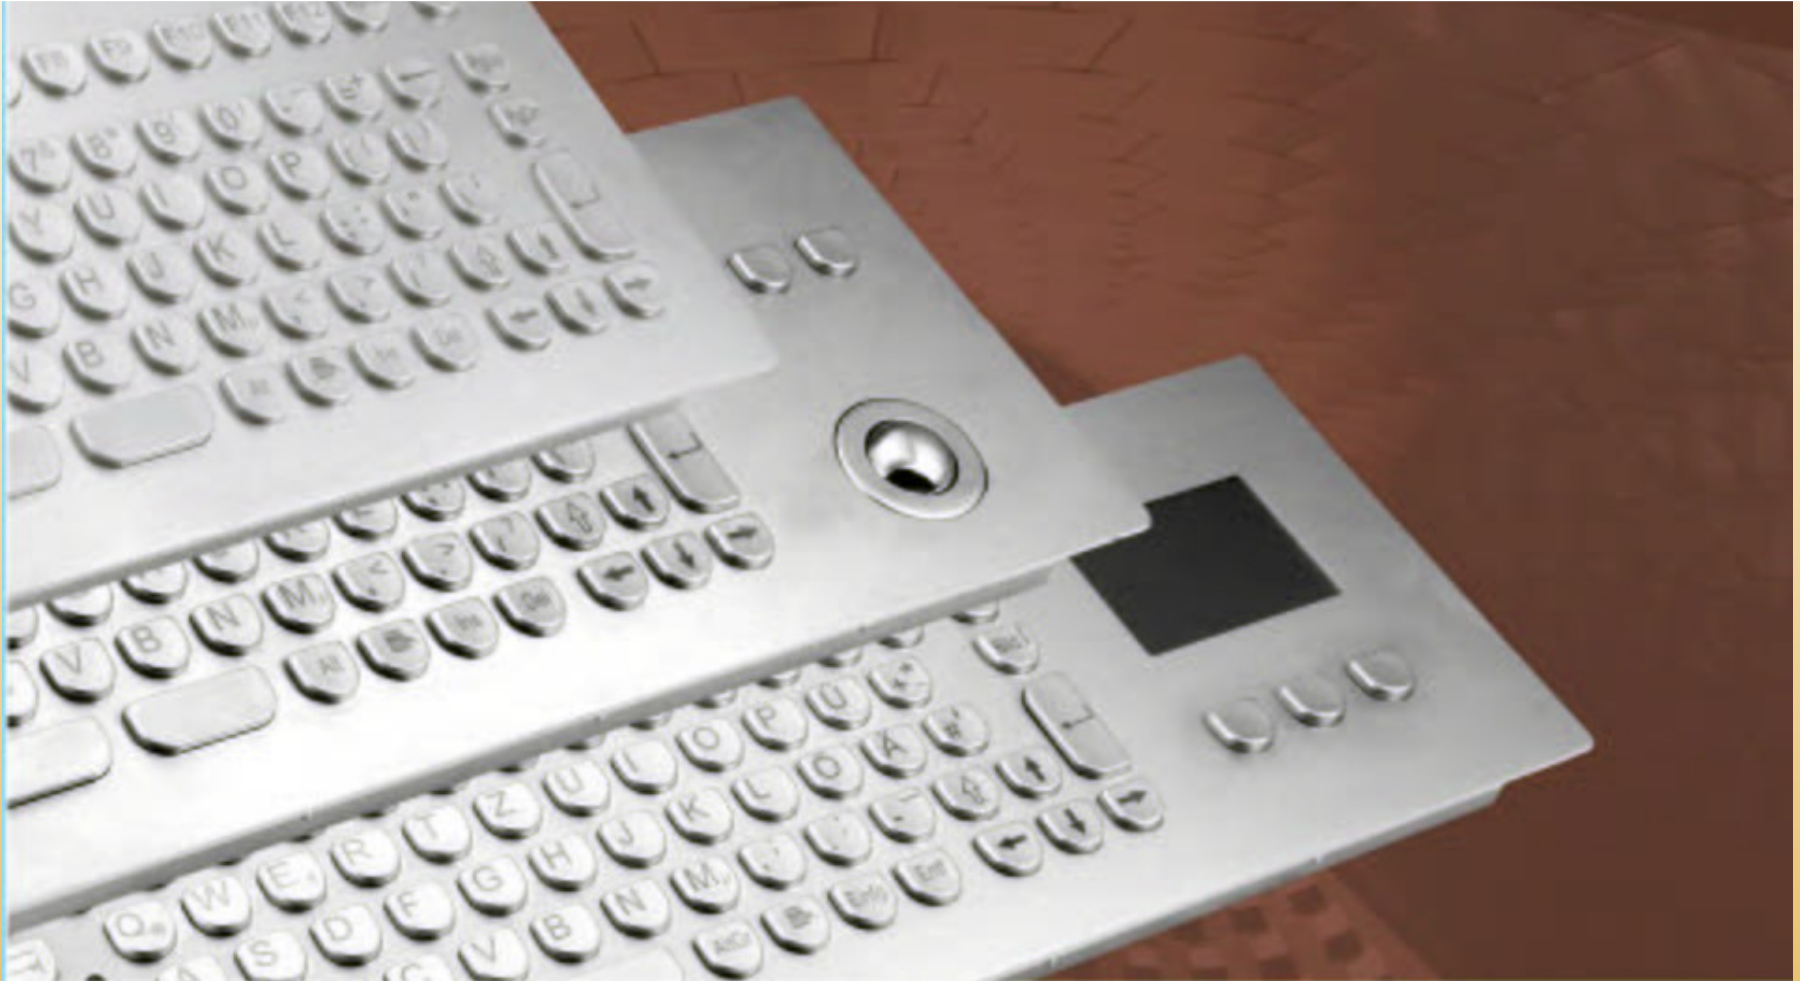

InduProof Advance™ and InduMouse Scroll™

Features

- IP68; NEMA 6P
- medicine, pharmaceutical, chemical food manufacturing
- compact versions
- integrated mouse button or touchpad
- Extremely flat and optimal shaped keys for 100 percent cleaning and disinfection
- Special key for switching-off the circuitry – enables the cleaning process during a running process

Vandal proof Stainless Steel Keyboards

Stainless Steel Keyboard Range

InduSteel™

Features

- specially developed for POI and heavy industrial markets
- Robust and durable
- Panel-mount version with mounting studs on rear-side
- Laser engraved key legends
- Non removable keycaps
- NEMA 4X
- > 10 million operations

Stainless Steel Keyboard Range

InduSteel²™

Features

- Kiosk designed web- and e-mail-hot keys
- with trackball or as compact version
- cost effective
- high operating comfort and good tactile feedback
- Semi or full customization available

Custom Keyboards
